

Morningside Teachers' Academy  
20<sup>th</sup> Annual  
**Summer School Institute**  
July 12 - 30, 2010

Attend 1, 2 or both weeks.  
We highly encourage you to attend both.

The *Morningside Model of Generative Instruction* has been developed over the last 27 years and has a track record of improving the academic performance of children, adolescents, and adults in over 100 locations. We have developed classroom practices based on scientific research in both psychology and education. MMGI combines well-designed instructional materials, researched-based procedures for instruction, and focused practice to fluency. This is a perfect opportunity to both hear and see these methodologies in action.

Learn the fundamentals of instruction, practice, and application in reading, writing & math. Become familiar with counting, charting and analyzing behavior using the Standard Celeration Chart. Attendees who are present for both weeks will be placed in a classroom during our Summer School program and receive coaching. Those attending one week will be able to observe in the classrooms.

Graduate Students will attend a 3<sup>rd</sup> week, July 26- 30.  
The 3<sup>rd</sup> week will include additional classroom experience & seminars.
